The company AMG-Pesch GmbH as manufacturer declares that the double-piston part-turn actuators of the series BR16 / BR03 / BR03C type SAD / SAF have been subjected to a type test according to DIN EN 15714-3

The results of the type test and the used measuring instruments were documented in a test report stating the type, quantity and sizes of the tested double-piston quarter-turn actuators.

The results are compliant with the requirements of the above mentioned norm.

A handwritten signature in black ink, appearing to read 'ppa Bayerl', written over a faint circular stamp.

Anna Broadley-Bayerl,  
Managing director
